

About zip

This package will include directories:

1.full_version

- This is full version like you see at here: <https://minimals.cc>

2.simple_version

- To remove unnecessary components, a simplified version is referenced from **full_version**
- This is simple version like Create React App. You can add any component you want. (<https://simple-minimals.vercel.app>)

3.simple_version_next

- This is example similar to simple_version but used for Next.js (<https://nextjs-minimals.vercel.app>)
